

## **New IOC Programs Achieve Many Successes through Individualized Services**

In the brief amount of time that six NJAMHAA member agencies have been the first providers of Involuntary Outpatient Commitment (IOC) services, they and the individuals they serve have already made significant achievements, including:

- \* Reduced hospitalizations and emergency room visits
- \* Shorter inpatient stays
- \* Reduced crime and incarceration
- \* Stable housing/reduced homelessness
- \* And more
