OVERVIEW

The Division of Mental Health and Addiction Services (DMHAS) is continuing the DSCOVERS program to reimburse community-based, non-profit Substance Use Disorder providers under contract with the DMHAS for eligible expenses related to the COVID-19 pandemic. Expenses incurred between October 15, 2021 and February 1, 2023 will be eligible for this program. Eligible expenses (described below) must be documented new costs incurred during this time period and not already reimbursed through your DMHAS contract or any other federal, state or county relief program.

All claims will require supporting documentation that will be reviewed by DMHAS Fiscal staff prior to payment. Further, all claims will be subject to audit and any payments issued that are ultimately deemed to be improper based on a further review of documentation will be recovered.

ELIGIBLE CATEGORY TYPES

The following expenditures qualify for reimbursement for COVID-related expenses:

1. **Personal Protective Equipment (PPE)**
   a. Face coverings: Surgical Masks, N95s, cotton masks
   b. Face Shields
   c. Gowns
   d. Gloves
   e. Goggles

2. **Technology for IT infrastructure, specifically substance use disorder services, for new and existing clients by DMHAS contracted, non-profit providers.**

   Items under this category include, but may not be limited to:

3. Testing Kits and related items:

There are a vast number of rapid test kits already approved by the FDA, called antigen point of care tests, which can be found [here](#).

The test kits eligible for reimbursement through the DSCOVERS program are designated with an Authorization Setting of “W” on the website link provided above.

Testing related allowable expenses include:

Eligible expenses must be incurred between October 15, 2021 and February 1, 2023. DMHAS will not reimburse for expenses incurred outside of these date parameters.
